433 Eros (and detail)

Wood, Copper Leaf and Automotive Paint

60" x 30" x 2"

2014

433 Eros is a relief sculpture of a near earth asteroid developed as a 3D model using NASA photographs. It is finished in copper leaf and treated with a heavy application of multi-color automotive pearlescent clear coat.

ANDREW HUNTER

Magnetosphere 6

Stainless Steel and Plastic

36" x 22" x 40"

2014

*Magnetosphere 6 is a form based on
the solar winds' effect on the earth's
magnetic field.*

ANDREW HUNTER

Still (collaboration with Rebecca Goodman)
Interactive Installation
Dimensions Variable
2013

Still is an interactive installation which tracks viewer using a kinect sensor and allows them to control color, shape and cadence of animation in the installation by changing body position and location in the environment. If the viewer participates long enough a live video rendering of them is over-layed in the projection.

ANDREW HUNTER

Systems (installation view)

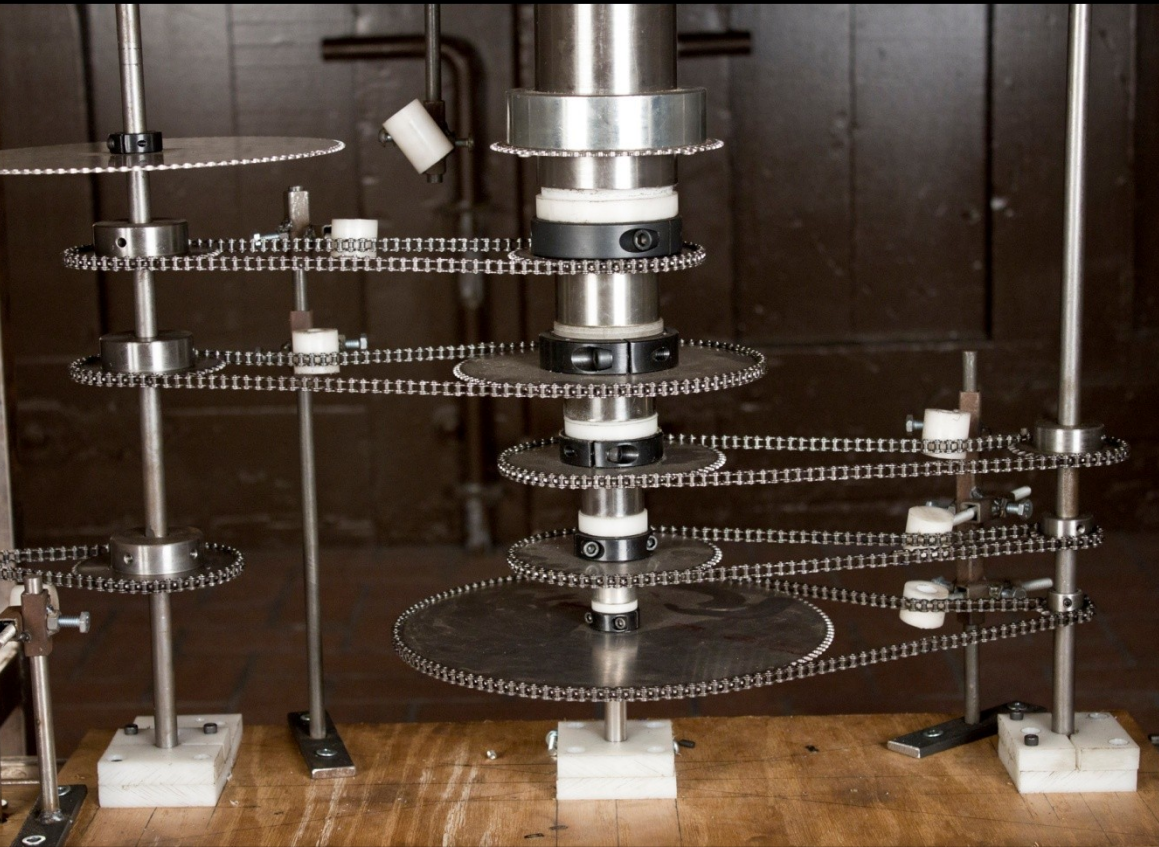

Stainless Steel, Wood, Paper and Motor

60" x 60" x 60"

2011

ANDREW HUNTER

Systems (details)

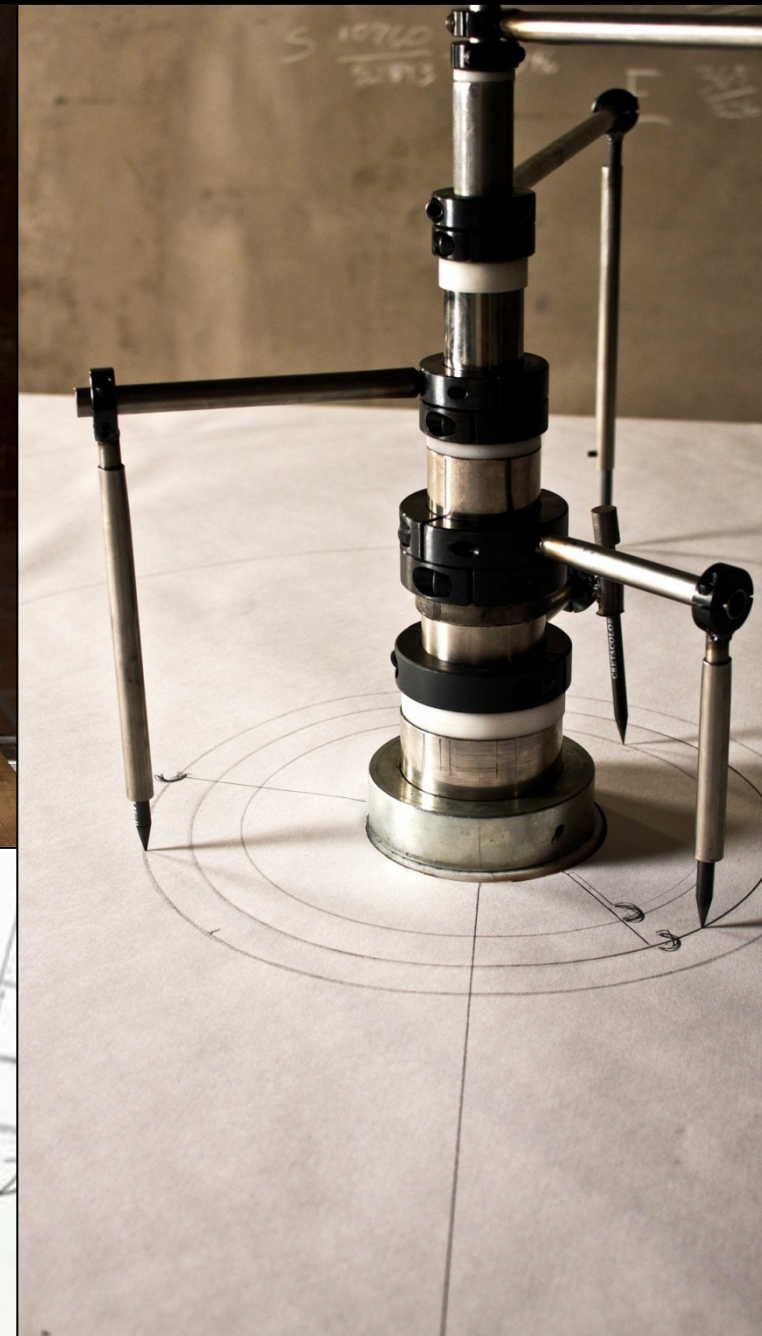

Stainless Steel, Wood, Paper, Graphite and Motor

60" x 60" x 60"

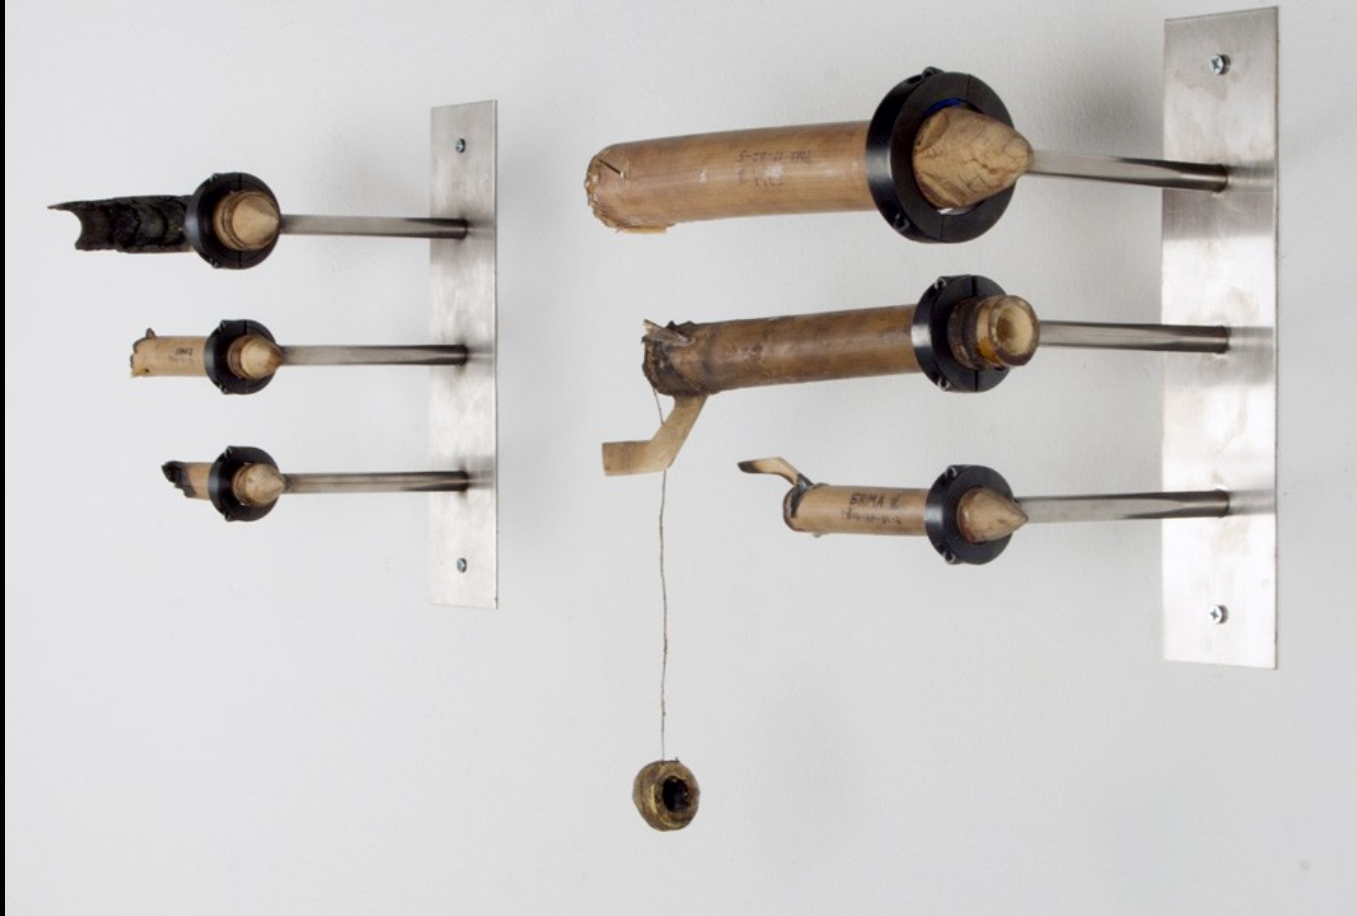

2011

Systems is a drawing machine that is a working scale model of the solar system (from Venus to Jupiter). It is a calendaring system that can be set to any given date and draw a series of arc and overlapping circle that correspond to the movement of the planets over a given amount of time.

ANDREW HUNTER

The Orbital Bamboo Project (Installation View, Photo and Video Documentation)
Bamboo, Wood, Rocket Fuel and Refractory
Dimensions Variable
2010 - Present

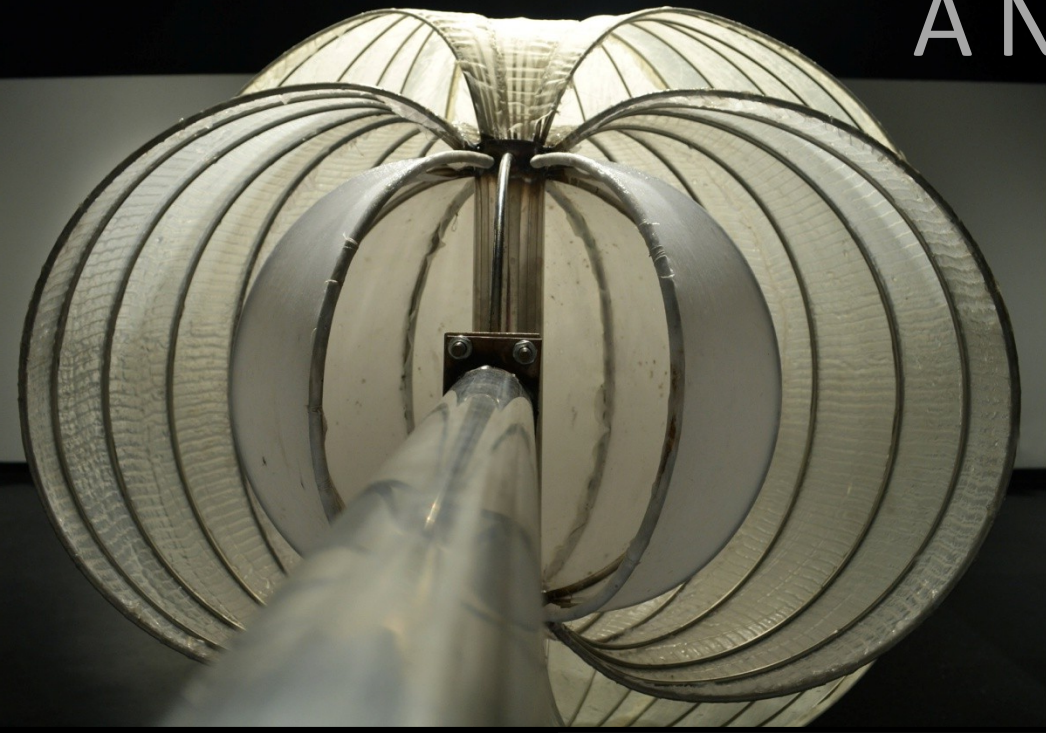

The Orbital Bamboo Project encompasses all elements related to my efforts to launch bamboo rockets and takes various forms (object, installation, photo and video) . Part homage to early Chinese rocketeers and part personal challenge, the project mostly documents the difficulties and mishaps of such a venture.

ANDREW HUNTER

Magnetosphere 1

Stainless Steel, Fabric, Resin and Rubber
36" x 40" x 62"
2010

*Magnetosphere 1 is a form inspired by the
ever changing magnetic field on Earth and
other magnetic dipoles.*

Ferro

Aluminum, Motor and Magnetic Fluid

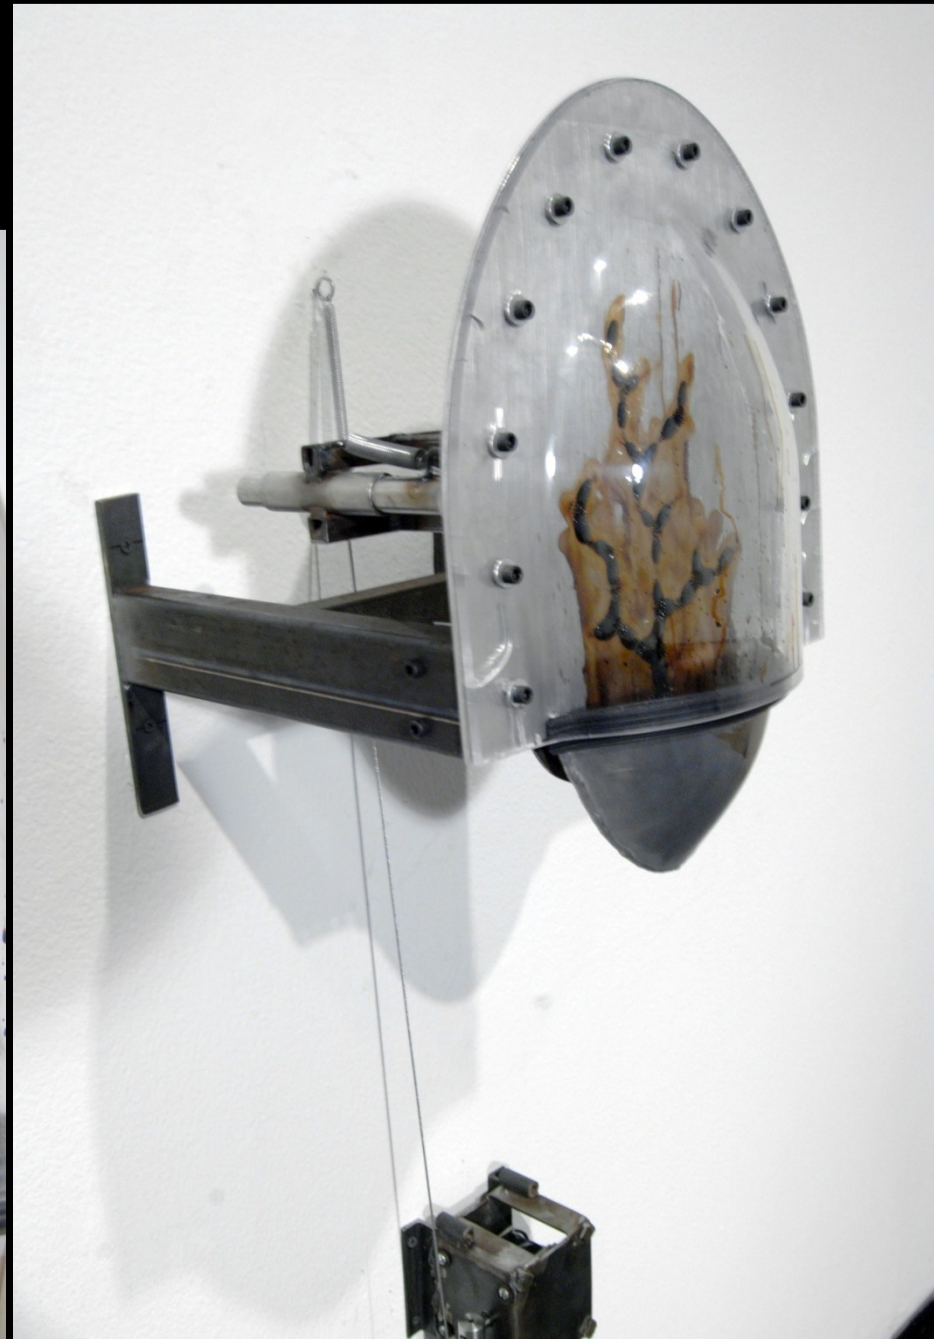

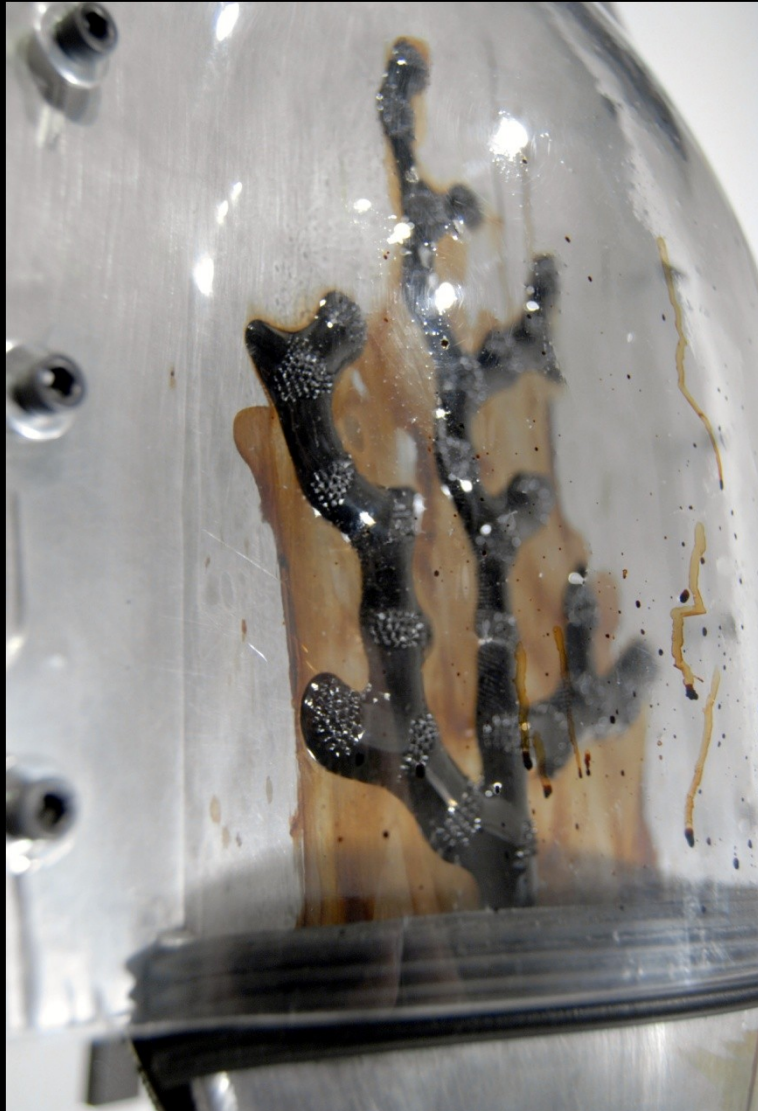

48" x 12" x 14"

2010

ANDREW HUNTER

Ferro Device is a kinetic work using magnets and magnetic fluid to pull a dark fluid up a vertical plane in the pattern of a capillary system.

ANDREW HUNTER

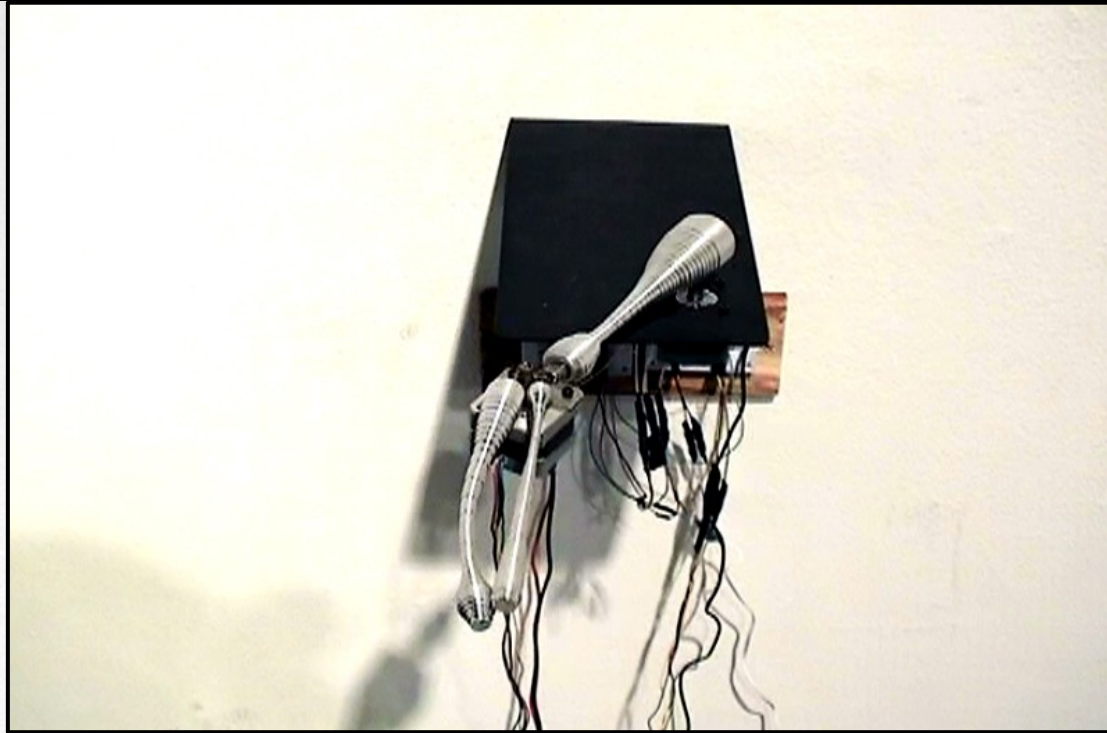

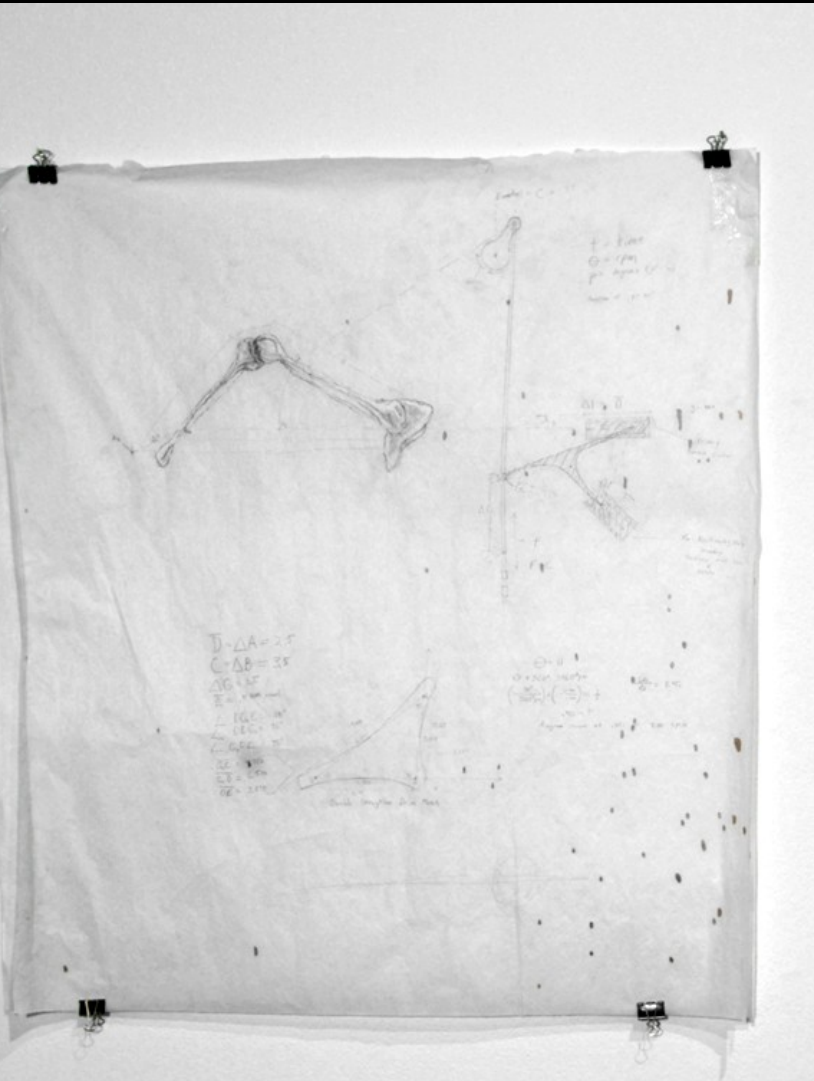

Violin Sync
Milled Aluminum
18" x 8" x 3"
2010

Inspired by the strange relationship between thermal conductivity and acoustics, Violin Sync is CNC cut aluminum from a 3D computer model.

ANDREW HUNTER

Mech Wing

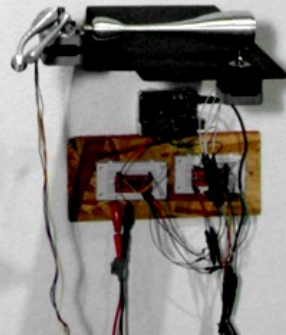

Aluminum, Microcontroller, Motor
and Drawing

Dimensions Variable

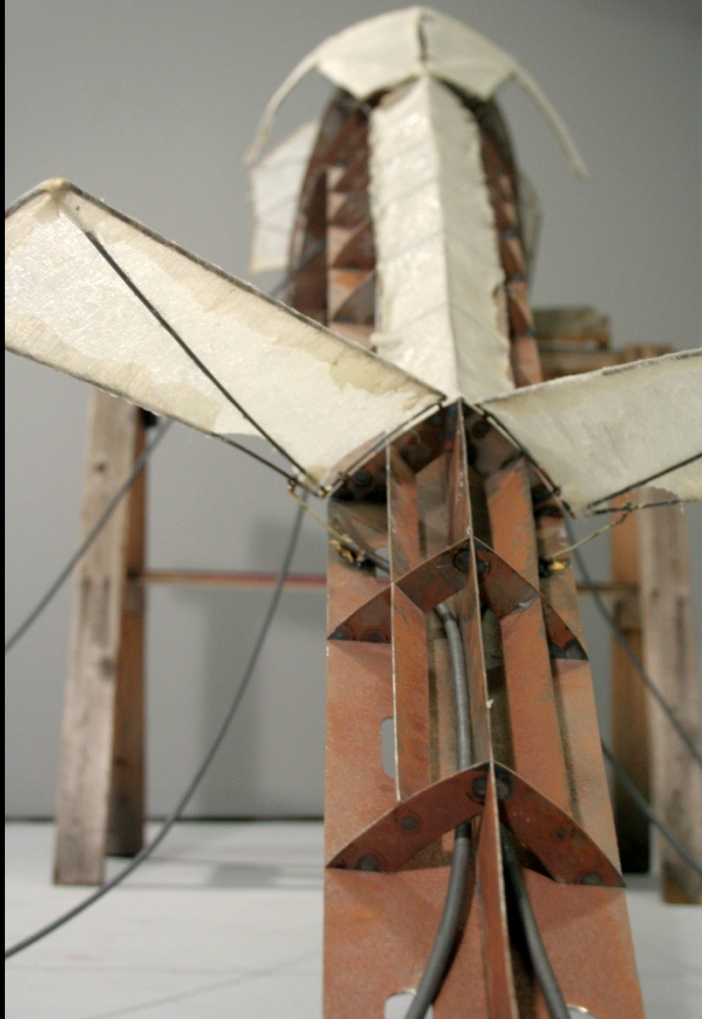

2009

Mech Wing is a robotic wing displayed with design drawings leading to its creation. Wing is preprogrammed to mimic found footage of a bird in flight.

ANDREW HUNTER

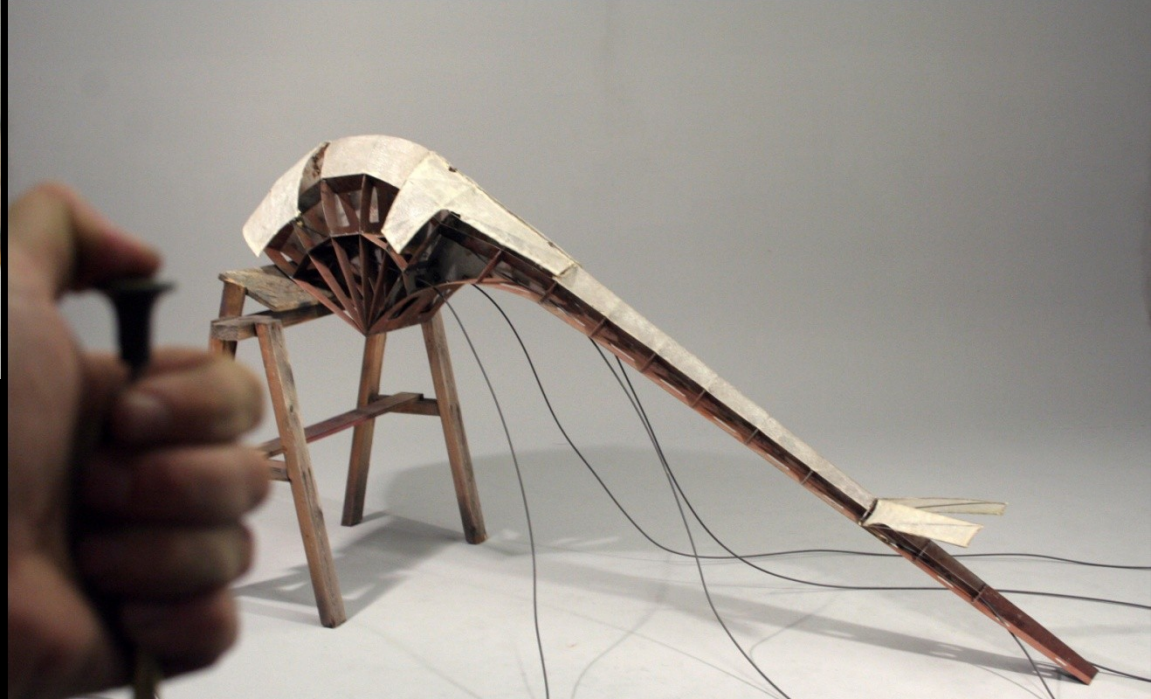

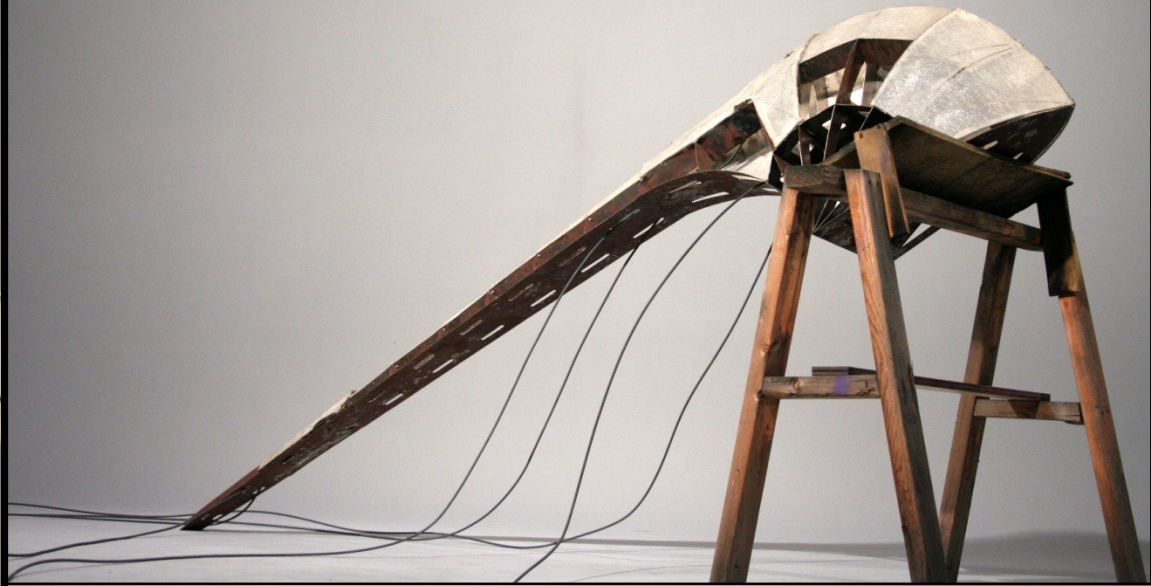

Aero

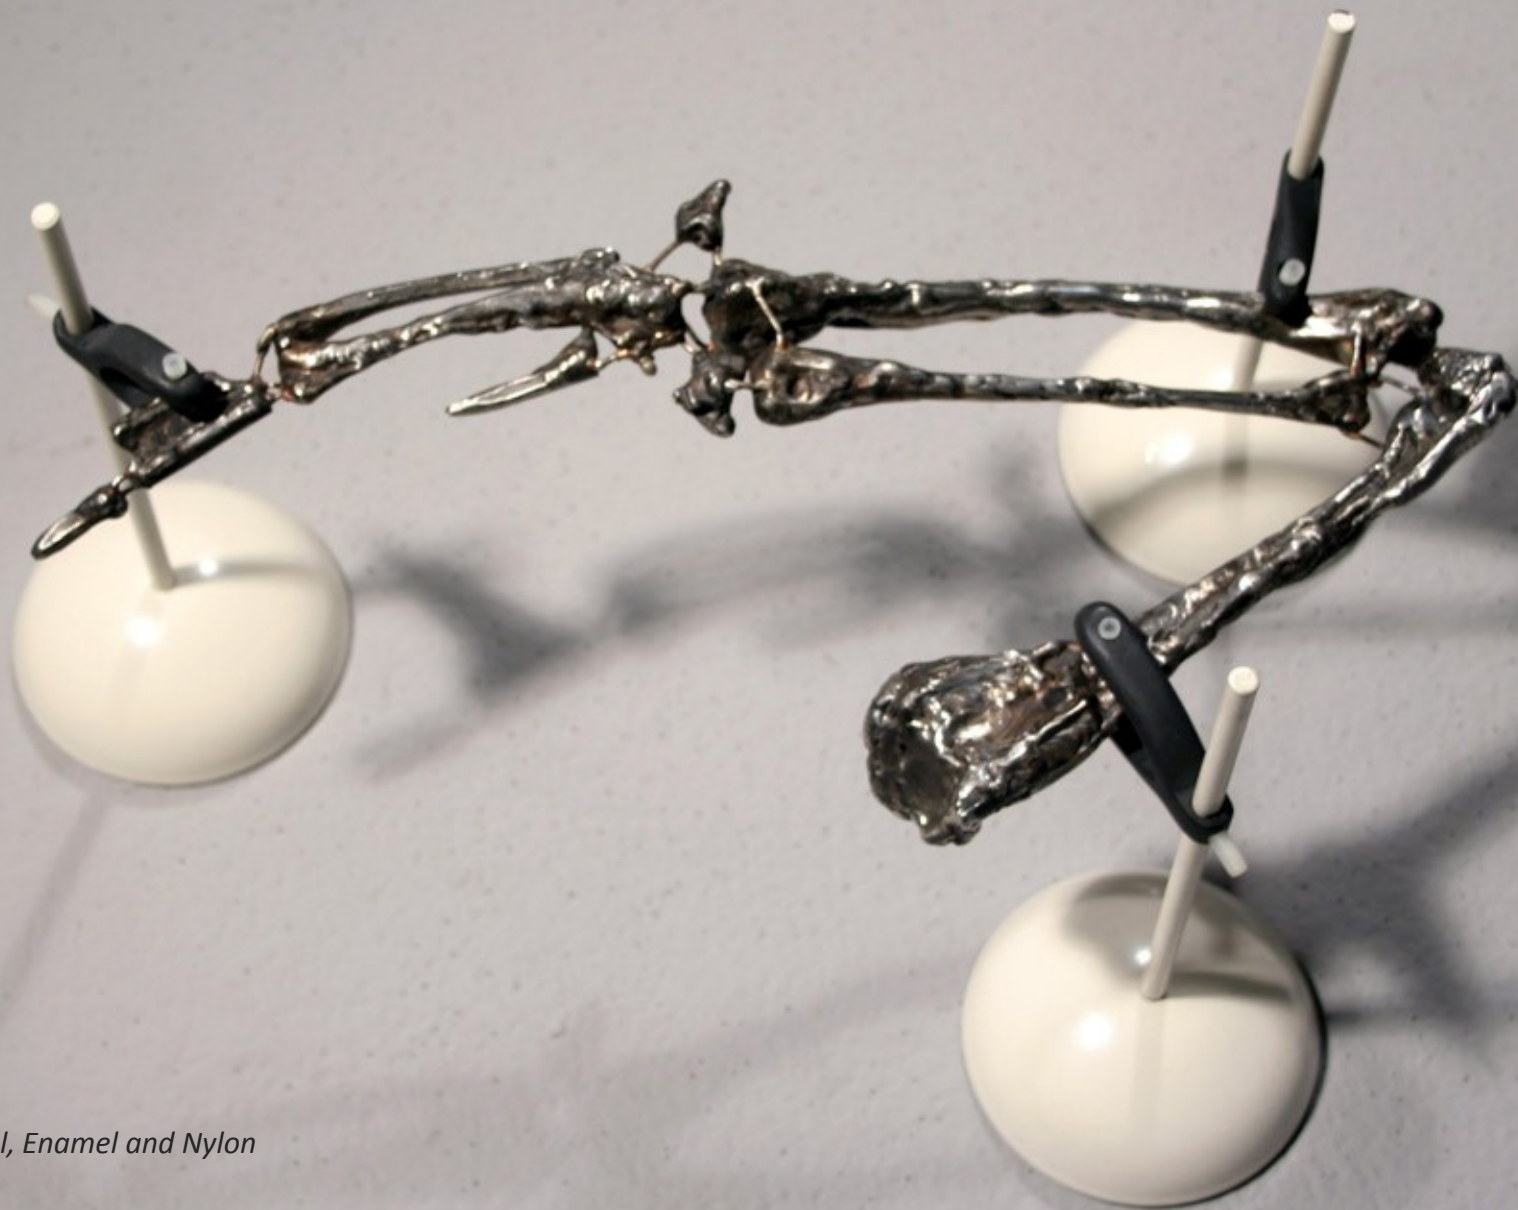

Steel, Silk, Rubber and Control Cables

52" x 84" x 30"

2009

Aero is a fabricated steel form influenced by aeronautical and ship design . It is fit with 6 cable controlled elevator flaps much like an airplane.

Wing

Stainless Steel, Enamel and Nylon

8" x 14" x 9"

2009

Atlas 4

Acrylic, Pastel, Ink and collage

16" x 24"

2014

ANDREWHUNTER

ANDREW HUNTER

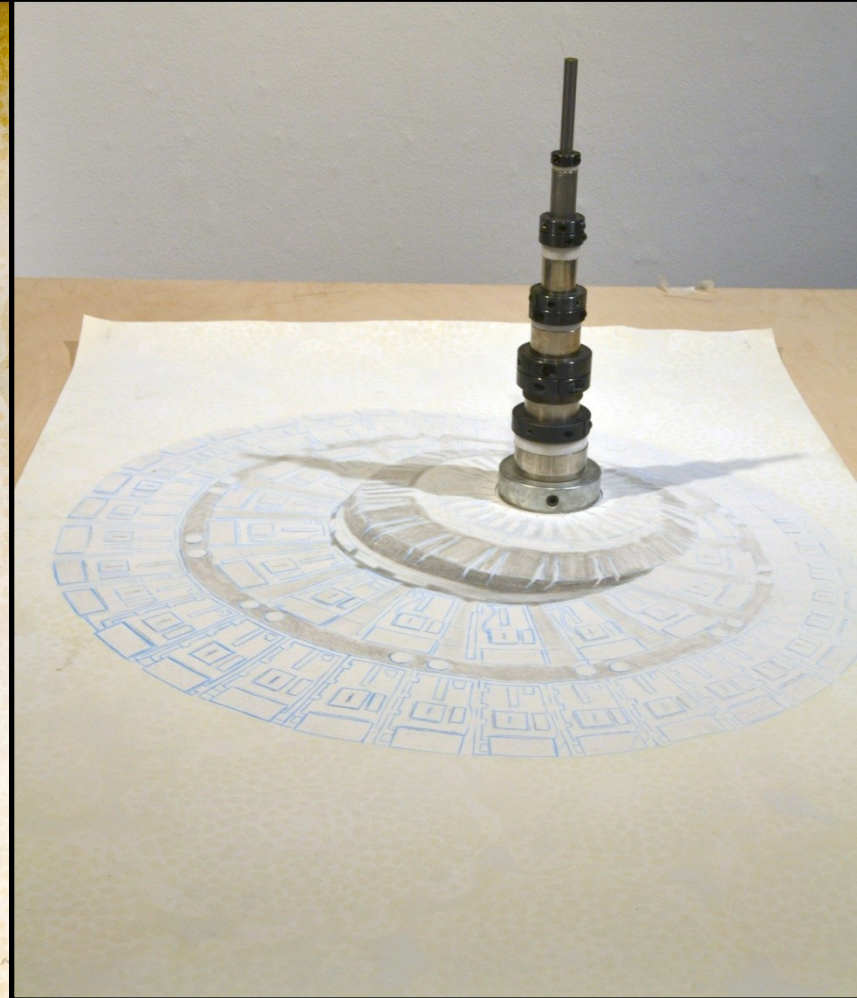

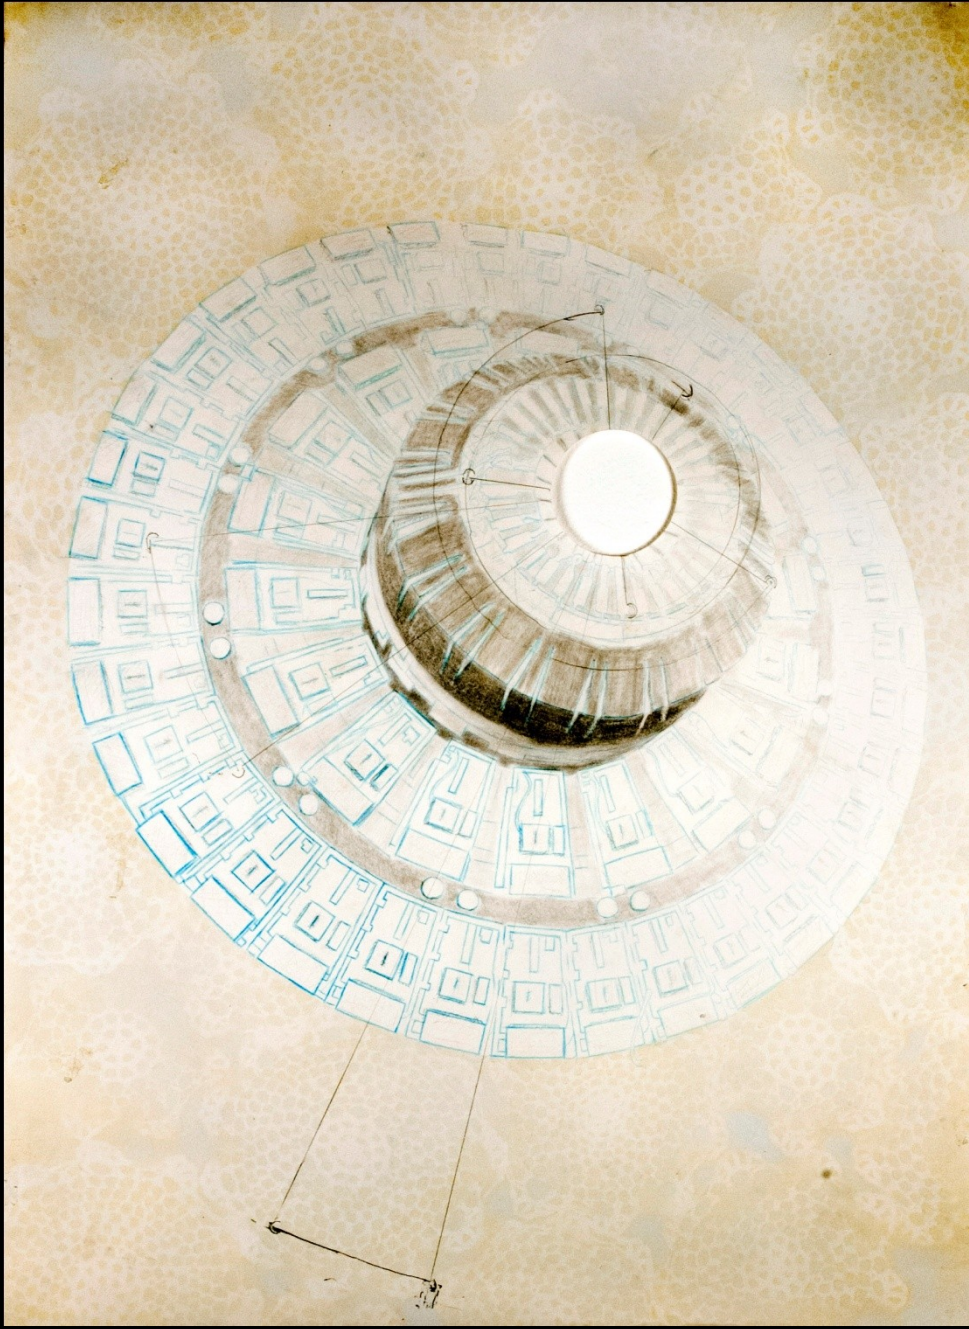

Mechta

Charcoal on Paper

43" x 28"

2011

ANDREW HUNTER

Atlas 1

Graphite, Colored Pencil and Spray Paint

56" x 34"

2011

Atlas is a drawing based on imagery from the large hadron collider. It is marked with a drawing machine that records dates as orbits of the planets in our solar system.

ANDREW HUNTER

Case #4

Fiberglass, Leather and Fabric

14" x 10" x 15"

2010
